Greetings Fellow Residents,

Only 50 more days until July 1st! Thank you for your patience as we work on rolling out changes for next year. Your cooperation with the new scheduling processes was greatly appreciated and we hope it provided more creativity with making a personal schedule. As we are coming to the end of the academic year we also wanted to extend a special thank you to the PGY3's and preliminary interns who will be graduating from the residency. Your commitment to your patients and colleagues has been inspirational.

As you've probably noticed, we're trying out a new newsletter style and hope that it helps to communicate news in a concise and visually appealing manner. If you're having trouble seeing the pictures make sure you click 'allow pictures from this sender' at the top of this e-mail.
